

# Moomin Ice Cave

## – A Frozen Fairytale World Below Ground

Experience winter even in summer at the Moomin Ice Cave! Descend 30 meters underground and discover crystal-clear ice sparkling around you. In the glowing light, beloved Moomin characters come to life, expertly carved from natural ice by world-class ice artists. Step into the magical world of Tove Jansson's beloved stories.

Walk through snowy forests, frozen valleys, and enchanting scenes from Moomin adventures. The exhibition changes each year, making every visit a unique journey into imagination. Children marvel at the magic, while adults rediscover their inner child.

After your adventure you can warm up at the restaurant, explore the Moomin shop, or continue the winter fun at WinterPark – Europe's longest ice slide, snow tubing, and more.

**Tips:** The ice cave is cold; dress warmly. Overalls and jackets are available for up to 15 visitors.
